

FAMILY GUIDANCE CENTER HEALTHCARE HOME

Serving:
Andrew County
Buchanan County
Atchison County
Gentry County
Holt County
Nodaway County
Worth County
Clinton County
DeKalb County

We believe that helping people lead healthier lives can greatly reduce the negative impacts of living with long-term mental illness, substance use and medical conditions. Family Guidance Center Healthcare Home is an outpatient service where individuals receive higher quality of care and achieve healthier outcomes. Individuals may qualify for Healthcare Home services if there has been a diagnosis of:

- » Asthma
- » Diabetes
- » Cardiovascular disease (including high blood pressure)
- » Over-weight (BMI > 25)
- » Currently using tobacco products

Other services at the agency in our Children and Youth, Adult Mental Health or Substance Use Treatment Services. Individuals may be referred to Healthcare Home after an intake assessment or after services have been initiated at Family Guidance Center. Healthcare Home services are provided in our St. Joseph, Cameron and Maryville offices.

Services

Family Guidance Center Healthcare Home will provide a Nurse Care Manager who will assess current health conditions and help to identify healthcare and wellness goals. Once these goals are established, they will be integrated into the individualized treatment plan. The Nurse Care Manager will work with the consumer and the other members of the treatment team to manage health conditions and to coordinate care.

The frequency of face-to-face visits with the Nurse Care Manager will be determined based on healthcare needs, but will occur at least annually. Individuals receiving Healthcare Home services will have the ability to contact their Nurse Care Manager and the members of the Healthcare Home team during regular business hours.

Fees

There is no additional charge.
