## FAMILY GUIDANCE CENTER MEDICATION MANAGEMENT SERVICES

Family Guidance Center offers medication management Services to adults and children with mild to severe mental health issues, to assist in regaining stability and ability to function to their highest potential. We have highly trained professionals that offer medication management services in St. Joseph, Maryville, and Cameron offices. Dr. Arjumand Jaffri will see children that are currently in services that attend Carden Park Elementary School. The physicians/nurse practitioners assess to determine individual need for medications and provide ongoing monitoring to ensure that the medication therapies prescribed are effective. Appointment frequency is based on individual need. Family Guidance nursing staff provide assistance with medication instructions, calling in prescriptions, answering questions, monitoring of vital signs and medication administration, as needed.

\*Appointment availability varies by location and physician.

### Insurance and Payment Information

Family Guidance Center accepts a variety of insurance for medication monitoring services, depending on the provider. All copays are expected at the time of the appointment, unless previous arrangements have been made.

### Genoa Pharmacy

The Genoa Pharmacy is a full service pharmacy located within Family Guidance Center at the 724 N. 22nd St. location to provide fast service to our consumers. This pharmacy will fill prescriptions from other providers as well for your convenience. Genoa provides medication monitoring in the form of prefilled bubble- packs, if desired.

\*Medications will be filled at the pharmacy of the consumer's choice. The use of Genoa is not required.
